NOTE FROM THE EDITOR

Welcome to Tweak Magazine,

The @TwistedTweakNFT community created this art magazine with the intention of sharing the unique art created by the NFT community with the rest of the world. This week we dive into the collection of fellow tweak and artist @ACIDastronaut.

We tweaks have been proud to continue sharing the wonderful art being created by artists from all blockchains and are working to find new ways to present the works to those outside of our ecosystem. If that is you then welcome to our zany and expressive world 😊

Thank you for supporting the arts in whatever fashion you do.

-Chumwizards

P.S. Not all art presented is a static image. Artwork titles with an asterisk * are best viewed using the link to the work to get the full experience

THE TWISTED TWEAKS

Tweaks are the digital, artistic representation of many internal struggles humans face. The anxieties and complex emotions that people feel every day should no longer be looked down on, rather accepted and loved because that makes you who you are.

[Visit Tweak Labs](#)

Twisted Tweaks are the flagship collection for the Tweak world since 2021. Minting for over 3 years using rewards based airdrops, they are the longest minting 10k PFP collection.

You can receive a new mint by purchasing one on the secondary market.

Twisted Tweaks were created by Tweak Labs, a creative brand building at the edge of innovation in web3, AI, and fashion.

Featured Tweak: 010 Ghost

[CULTURE MONKE]

Came for the monke.

Stayed for the art.

Glitch blooms in oldcode
Experiments laugh, then merge
Monke keeps the thread

What is Culture Monke

Culture Monke is me gathering the routes my work has taken since I entered web3 in 2021 and letting them live inside one recognizable body. Glitch, texture, code systems, hand-made mess, hard edges, soft accidents - not as separate eras, but as one continuing thread. It is a checkpoint, not a recap. A way to consolidate the experiments, then move forward with a clearer center of gravity.

What about my glitch

People can get weirdly territorial about glitch. If it comes from code, a custom tool, an intentional system, or a controlled break, someone will always say it is not true glitch. That argument misses the point. My work lives in that tension: structure pushed until it fractures, rules built so they can misbehave, clean systems made to produce something unstable. If my glitch does not fit your definition of true glitch, then by definition, it is true glitch.

Why Monke

Because the monke was the obvious myth to return to. Many of us entered this space through a character, a signal, a shared joke that somehow became a serious doorway. For Culture Monke, the character holds the canvas close to his heart: part mascot, part witness, part collector, part believer. A consistent figure made sense because the styles are varied. The monke becomes the thread, and the art becomes what he carried us toward.

Drop mechanics

- Supply: 1/1/222
- Mint phases: 4
- Date: Last week of July, tentative
- Mint platform: TBA
